Be Financially Fit

Financial health is important. It's just a simple fact. And, it's important to take a minute to review what's going on with your accounts. Let us help. Maybe we will be able to save you a few dollars, trim some time off your current loan, or suggest some practical ways to help improve your credit score. Either way, we want to help your (finances) stay healthy.

Some other painless ways you can keep your finances in check are:

- Know what you can afford. It's so easy to say "oh, what's a few more bells and whistles on that new car", or "wow, we could really use some more living space...", find out exactly what those add-ons will cost you with our calculators.
- Schedule a review with one of our member service representatives to discuss your current financial situation, your present and future needs, and answer any questions you may have—we may be able to find solutions to help you with:
 - Consolidating and/or eliminating debt
 - Reducing credit card or auto loan rates by refinancing your higher-interest loans with us
 - Refinancing your mortgage/home equity

Tell us!

We all know that saying "It's good to get a second opinion." We agree. We've made a lot of changes recently and, in our opinion ones for the better. But, we are a credit union. We exist to serve you, and your opinion matters.

Please take a minute to give us your feedback in our member survey that will be arriving to your email shortly. It should take no more than 5 minutes of your time. The link will also be available on our Facebook page—be sure to like us!
